Detailed billing reports (legacy)

Info

Edit

Important:

The AWS Cost & Usage report contains the most granular set of AWS cost and usage data available, including additional metadata about AWS services, pricing, and reservations (e.g., Amazon EC2 Reserved Instances). If you would like to access detailed information regarding your AWS costs and usage, we recommend creating an [AWS Cost & Usage Report](#).

Legacy report delivery to S3

No S3 configured

Permissions boundary (not set)

Set a permissions boundary to control the maximum permissions for this user. Use this advanced feature used to delegate permission management to others. [Learn more](#)

Generate policy based on CloudTrail events

You can generate a new policy based on the access activity for this user, then customize, create, and attach it to this role. AWS uses your CloudTrail events to identify the services and actions used and generate a policy. [Learn more](#)

Generate policy

No requests to generate a policy in the past 7 days.

Security recommendations 

 **Add MFA for root user**

Add MFA for root user - Enable multi-factor authentication (MFA) for the root user to improve security for this account.

[Add MFA](#)

 **Root user has no active access keys**

Using access keys attached to an IAM user instead of the root user improves security.
